All of our support groups are facilitated by Certified Alzheimer's Disease and
Dementia Care Trainers

Often times, we hear caregivers say they are looking for support from people who "really understand because they've been there, too." A Dementia Caregiver Support Group offers just that – a safe place for caregivers, family and friends of persons with dementia to meet and develop a mutual support system.

It's a place to:

- * Exchange practical information on caregiving problems and possible solutions
- * Talk through challenges and ways of coping
- * Share feelings, needs and concerns
