

## OUR FOCUS

The dedicated, caring staff of Assurance Health delivers patient/family centered care to the senior population with primary psychiatric diagnoses. Assurance Health provides comprehensive, individualized care to our patients, according to their psychological and physical needs, contributing to optimal patient outcomes.

Understanding that environment plays a significant role in our patient's progress, our inpatient hospital is specifically designed to provide a safe, comfortable atmosphere for effective treatment of seniors. Each patient receives an individualized plan of care that includes activities fostering socialization, nutrition, stress management and exercise. The individualized plan of care is developed with the full participation of the multidisciplinary team.

- Speech Therapists
- Wound/Ostomy Consultant Nurses

**Assurance Health**  
focuses on the  
psychiatric needs  
of senior adults

## Our Nurse Liaisons are Here to Help

A Nurse Liaison is available to assist you with the admission process, at your facility or hospital, around the clock, 24 hours a day, 7 days a week.

Once a referral phone call is made, our Nurse Liaison will provide the following:

- On-site assessment
- Paperwork/Documentation copying or faxing
- Phone calls to family and/or power of attorney
- Arrange transportation
- Post discharge follow-up

The goal of each Nurse Liaison is to streamline the process from admission to discharge.
